All families will be contacted prior to the start of the 2020-2021 school year to update student’s demographic information, as applicable.

02. CONTACT INFORMATION

The care and custody of our students is a priority. Please make sure you update your contact information i.e. phone numbers, address, and child pick up list **immediately**, if there is a change. In the event of your child’s illness, injury, or emergency school closings we must have valid contact information to notify you.

03. ATTENDANCE

Regular attendance is required of all students. Valuable instructional hours are missed, when students are absent from school. Please refrain from scheduling appointments that require students to miss school, if possible. Regular school hours are Monday-Friday from 9:00 a.m. to 3:30 p.m.

Attendance Supportive Measures

Our Family/Community Liaison serves as a link between students and their families, the school community, and contractual organizations (community resources) to create and enhance a seamless culture of respect and achievement. This liaison will help to engage our attendance success during remote learning by:

- Maintaining contact information for students and families to build strong relationships that can endure time and distance.
- Learn more about the student and/or family's digital access, including internet connectivity and technology devices.
- Engage and build long-term trust. Continue to establish meaningful communication that connects students, families, educators, and, in some cases, other caring adults from the community.
- Engage parents and families by creating connections to community supports that meet the needs of the whole child, training on remote learning platforms and other technology, and clearly communicating district and school attendance expectations.

Our Guidance Counselor will provide a comprehensive guidance and counseling program designed to address the personal, social, emotional, academic and career development, as applicable of all students via a multi-tiered system to support the whole child; to help remove barriers that prevent students from participating and engaging in learning, mitigate negative learning experiences, address lack of engagement and misconceptions, and provide needed social-emotional supports.

Hybrid Model (brick & mortar learning (i.e. 3 days in-person/ 2 days remote)

COVID-19 Measures

- ***Face Mask*** - All students and employees will be required to wear them i.e. (2) cloth mask will be provided by the school – students may have mask breaks in their assigned classroom
- ***Social Distancing*** – desks/students 6 feet apart in classrooms – maximum of 13-15 students per room – teachers desk fitted with shields – total of (27) shields to be installed throughout the building
- ***Shared Objects*** - all students' belongings will be separated from others' and/or stored in individually labeled containers, cubbies, or areas, as applicable and sharing of devices and supplies will be discouraged

- **Health Screenings** – Daily temperature checks upon arrival of all students and staff members via a wrist thermometer and as needed – parents/guardians are encouraged to check their student temperatures before departing for school as well
- **Hand Hygiene and Respiratory Etiquette** - Students will be required wash their hands with soap and water for at least 20 seconds and/or use hand sanitizer that contains at least 60% alcohol - Encourage employees and students to cover coughs and sneezes with a tissue.
- **Cleaning & Sanitizing** – Daily and per CDC recommended schedules and product usage - use of a fogger
- **Signage** – Required postings throughout the building and on school entrances
- **Promoting Behaviors that Reduce Spread** – students who are sick or had close contact with a person with COVID-19 should stay home
- **Ventilation**- all ventilation systems will be inspected to ensure proper operation and circulation of outdoor air will be utilized as much as possible by opening windows and doors that do not pose a safety or health risk (e.g., risk of falling, triggering asthma symptoms) to students or employees. All rooms without windows will include a air purifier
- **Water Systems** - All drinking fountains will be disabled. Bottled water will be provided by the school, as feasible. Students and employees will be encouraged to bring their own water as well.

Reporting Absences

In general, if a student is absent, tardy or leaving early the parent/guardian must telephone the main office as follows:

1. Call the school by 9:00 a.m. on the day of each tardy, absence and/or non participating day/hours
2. Students reported absent by 9:15 a.m. will be contacted via the One-Call system.
3. Call the school a minimum of (1) hour prior to the time of each early dismissal/non participating day/hour
4. Upon returning to school, students must bring a written excuse(s) to main office – the main office will accept if the written excuse(s) meet the requirements for an excused absence.

5. Students have an obligation to complete and turn in missed assignments during illness or an unexpected absence. Students are guaranteed one day for each absent day from school to make up their work.
6. In developing a sense of responsibility, we expect students with their parents/legal guardians' help, to contact their teacher to secure missed assignments from absences.
7. Other medical related absences must follow the following guidelines for keeping your student at home for a minimum of 24 hours for the following:
 - Temperature over 100.4 degrees within the past 24 hours
 - Vomiting within the last 24 hours
 - Diarrhea within the last 24 hours
 - Skin rash of unknown origin, or lesions or draining areas of the skin
 - Pus and/or excessive drainage from eyes
 - Acute asthmatic problems
 - Heavy nasal discharge
 - Symptoms of communicable disease

COVID-19 Absences

In response to current COVID-19 regulations “A medically excused absence occurs any time a student is out of school due to illness or medical visit (physician, dentist, mental health, etc.). Medical excuses will be accepted in the form of doctor’s note within five school days of the absence or parent call-in on the day of the absence due to illness or doctor’s visit. A student may have up to 10 medically excused absences without a doctor’s note, but with a parent call-in. Medical excused absences will be accepted through this process for students participating both in-person and remotely. This policy will be extended beyond 10 days if the student or someone in the student’s family is in quarantine due to COVID-19 or experiencing symptoms of COVID-19.”

- Students will be required to stay home for a period of (14) calendar days, if they have tested positive for or are showing COVID-19 symptoms.
- Students who have recently had close contact with a person with COVID-19 will be recommended to stay home and monitor their health for a period of (14) calendar days.

Remote Learning Model

The school will track and report attendance in hour increments on the student level within EMIS to the degree that our current systems allow, as well as address the considerations outlined below:

- Classroom teachers will report attendance via Power Schools for their assigned students on a daily basis. Daily reported student attendance will be validated by the pupil services department on a daily and/or weekly basis, as needed.
- The school will review absences based on system and instructional data to determine if the absences are excused or unexcused.
- No evidence the student participated or engaged in any way in a remote learning activity, then the student will be marked with an absence for the hours for that remote learning activity.

Documenting Student Participation in Learning Opportunities

- Teacher-led remote learning (*synchronous*): our district will track teacher-led remote learning to its' equivalence with in-person instruction (i.e. likely to be the same) and record the attendance at the student level in hour increments (for example, two-hour synchronous web-based instruction with students in attendance may equal two hours of attendance for each student).
- Self-directed remote learning (*asynchronous*): our district will track evidence and/or levels of participation with consistent and clear expectations for students. Evidence of participation may include, but is not be limited to: (*i.e. hours vary by grade level*)
 - Daily logins to learning management systems
 - Daily interactions with the teacher to acknowledge attendance i.e. daily interactions between teachers and students, messages, emails, telephone calls, video chats, or other formats that enable teachers to engage with students.
 - Assignment completion i.e. teachers will determine the number of hours they expect an assignment to take for a typical student and use that to gauge each student's attendance.
 - Daily or weekly journal/writing prompts
 - Analog projects via workbook bags, blizzard bags etc...

04. TRUANCY – HOUSE BILL 410

House Bill 410 Requirements Districts and community schools must have local policies that outline their interventions and strategies that support students who miss too much school. Districts and community schools should review their policies and determine if they need to amend current policies or create a policy to satisfy HB 410. It is important for every student in Ohio to attend school every day. Missing too much school has long-term, negative effects on students, such as lower achievement and graduation rates. There are many reasons students miss school, but districts often can directly impact their students' attendance. By using data to identify and support students who may need extra support and services, districts can target supports to get students to school every day.

In December 2016, the Ohio General Assembly passed House Bill 410 to encourage and support a preventative approach to excessive absences and truancy. Beginning with the 2017-2018 school year, several changes take effect. Schools cannot suspend or expel students for missing too much school. Districts will amend or adopt policies that outline their interventions and plans for students who miss too much school. Regular school attendance is an important ingredient in students' academic success. Excessive absences interfere with students' progress in mastering knowledge and skills necessary to graduate from high school prepared for higher education and the workforce.

To support academic success for all students, the district will partner with students and their families to identify and reduce barriers to regular school attendance. The district will utilize a continuum of strategies to reduce student absence including, but not limited to: Notification of student absence to the parent or guardian;

- Development and implementation of an absence intervention plan, which may include supportive services for students and families; counseling
- Parent education and parenting programs;
- Mediation;
- Intervention programs available through juvenile authorities; and
- Referral for truancy, if applicable.
- Updated district policies and procedures should reflect the following changes.

DEFINITION OF TRUANCY AND EXCESSIVE ABSENCES

1. 'Chronic truant' is removed from the law;
2. Definition of 'habitual truant' changed from days to hours. The new definition is:
 - a. Absent 30 or more consecutive hours without a legitimate excuse;

- b. Absent 42 or more hours in one school month without a legitimate excuse; or
- c. Absent 72 or more hours in one school year without a legitimate excuse.

3. Includes ‘excessive absences’:

- a. Absent 38 or more hours in one school month with or without a legitimate excuse; or
- b. Absent 65 or more hours in one school year with or without a legitimate excuse.

TRUANCY IS DECRIMINALIZED WITH SEVERAL CHANGES

1. A district must remove ‘excessive truancy,’ from its zero tolerance policy for violent, disruptive or inappropriate behavior;

2. Students cannot be expelled or suspended (out of school) for being truant (beginning July 1, 2017); and

3. A district must take several steps to engage the student and his or her family before filing a complaint with juvenile court (including parental notification, an absence intervention team and an intervention plan detailed below). Juvenile court should consider alternatives to adjudication and adjudication should be used as a last resort. A complaint cannot be filed until:

- a. the 61st day after failed implementation of an absence intervention plan; or

- b. A child has been absent without a legitimate excuse for 30 or more consecutive hours or 42 or more hours in a school month during the implementation of an absence intervention plan.

STUDENT DISCIPLINE CHANGES

1. Schools may permit students to make up missed work due to out-of-school suspensions per district policy; and

2. Schools cannot apply any remaining part or all of a suspension to the following school year, but the superintendent may require a student to participate in community service or an alternative consequence for the number of hours equal to the time left on the suspension.

DISTRICT RESPONSIBILITIES WHEN A CHILD HAS EXCESSIVE ABSENCES

When a student is excessively absent from school, the following will occur:

1. The district will notify the student’s parents in writing within 7 days of the triggering absence;

2. The student will follow the district’s policy for addressing excessive absences; and

3. The district may refer the student and family to community resources as appropriate.

DISTRICT RESPONSIBILITIES WHEN A CHILD IS HABITUALLY TRUANT

When a student is habitually truant, the following will occur:

1. Within 7 school days of the triggering absence, the district will do the following:

a. Select members of the absence intervention team;

b. Make 3 meaningful attempts to secure the participation of the student's parent or guardian on the absence intervention team.

2. Within 10 days of the triggering absence, the student will be assigned to the selected absence intervention team.

3. Within 14 school days after the assignment of the team, the district will develop the student's absence intervention plan.

4. If the student does not make progress on the plan within 61 days or continues to be excessively absent, the district will file a complaint in the juvenile court. Districts must establish an absence intervention team to be deployed only when a student is deemed habitually truant. Attendance Intervention teams for students excessively absent is at the discretion of the local district. The purpose of the absence intervention team is to establish a student-centered absence intervention plan for every child who is habitually truant by identifying specific barriers and solutions to attendance. The team is cross-sector and ideally includes the participation of the student and the parent. This requirement is new and is aimed at breaking down barriers to attendance without filing criminal complaints against the student in juvenile court.

1. Districts with a chronic absenteeism rate of 5 percent or greater must establish absence intervention teams for students who are habitually truant beginning with the 2017-2018 school year.

2. Schools are permitted to have their own absence intervention teams, but the district is responsible for developing a team if the school does not have one.

3. Membership of each team should vary based on the needs of each individual student, but each team **MUST** include:

a. A representative from the individual's school or district.

b. Another representative from the school or district who has a relationship with the child.

c. The child's parent (or parent's designee) or the child's guardian, custodian, guardian and or temporary custodian.

4. The district or school may consult or partner with public and nonprofit agencies to provide assistance, as appropriate, to students and their families to reduce absences.

As per the policy the school's attendance intervention plan will include parent/guardian attendance notifications for truant students as follows as well as the establishment of a Attendance Intervention Committee.

05. ADMINISTRATIVE WITHDRAWAL - RECOMMENDATION

WINGS's school philosophy and history of academic excellence is based upon the belief that forming a strong partnership between parents/legal guardians, students and the school is vital to the healthy development of WINGS and its' students. The continuing effectiveness of this partnership, we believe, is critical to the best interest of all WINGS parents/legal guardians and students. While we consider WINGS to be an excellent teaching-learning environment, we realize that no school, including WINGS, can meet the diverse needs of every single student and family. Should the WINGS administration, in its sole discretion, determine that this important partnership has broken down, or that other factors indicate that the student is in jeopardy of having a less than optimal learning experience, the WINGS administration will notify parents/legal guardians/guardians of the schools recommendation to withdraw the student in order to enable the family and student to secure an alternative school model that promises to enhance the student's overall growth and development.

Additionally, any parent/guardian using inappropriate, threatening, or abusive language or behavior with, or in the presence of or towards any school employee and/or with, in the presence of or towards any student; may result in a automatic loss of school visitation, loss of school event participation, prohibited from entering school premises, potential lawsuit(s) and in extreme situations an administrative recommendation for the student's withdrawal.

06. COMMON CORE CURRICULUM

All curriculum for Kindergarten through Eighth Grade are in accordance with the Ohio Department of Education Common Core Academic Content Standards. Instruction is provided in language arts, math, social studies, science, community building, financial literacy and character development. All curriculums for all

grades will be researched based and linked to state standards for English language arts, math, science, and social studies. i.e. Grades K-5 - Ready Gen and My Math. Grades 6-8 – Collections and Go Math. Additional resource materials will be provided via consultants, and teacher personal educational materials, Lastly, ‘special’ classes will be provided as it relates to the core values of WINGS via mentoring, drumming i.e. students will participate and perform in, a Kwanzaa Program, Black History Month Assembly, Spring Concert and Recognition Ceremony, and character development initiatives.

Remote Curriculum Modes

- *Digital mode:* Digital mode describes remote learning that is delivered via computer- or internet-based means. Digital mode remote learning requires students to have technology devices and, in most cases, internet access. Successful use of digital mode remote learning is dependent upon regular interaction between the student and educator. Our digital modes/resources for grades K-8 include - Google Classroom, Study Island, Word Voyage, Exact Patch, Read Works, News ELA, Kahoot, Reading A-Z, Raz-Kids; Student Email (Videos sent by Teacher), as applicable
- *Analog mode:* Analog mode describes remote learning that is delivered through a non-digital experience. This could include the use of high-quality paper learning packets or other non-digital instructional materials that enable students to engage in learning outside of the school building or traditional classroom setting. High-quality analog learning materials are sequenced, not random, and encourage student discovery and exploration apart from the school building. Successful use of analog mode remote learning is dependent upon regular interaction between the student and educator. Analog mode is often used when students lack access to technology devices and internet service.

09. HOMEWORK

WINGS Academy considers the regular and timely completion of homework assignments to be a critical component of the teaching-learning process. Ohio's Common Core standards are simply too great to expect student mastery without homework to be completed outside of the regular classroom. Homework must be seen as a necessary and vital extension of daily class instruction.

Assignments will be determined by the classroom teacher and may be short-term – overnight - or long-term - requiring several days or longer for completion.

More specifically, the Purpose of Homework, among others, is:

- Reinforcing lessons by practice and repetition skills,
- Keeping all students on pace with the school's curriculum,
- Providing needed remedial work or work that may have been missed due to an absence,
- Developing students' ability to work independently and assume responsibility for completing work and returning it to school on time,
- Increasing time-on-tasks through additional study time required for completing a specific assignment, and
- Enriching and advancing students' who possess the skill/talent to go above and beyond the curricular requirements.

Parents/legal guardians/Guardians, please ensure you are:

- Supporting and encouraging your student(s) to complete their assigned homework
- Providing a quiet place and time for your student(s) to complete assigned homework
- Consult with your student(s) classroom teacher with respect to questions regarding assigned homework

WINGS's commitment to daily instructional follow-up and homework completion will include various **Instructional Interventions** that may be offered during, before, or after the school's instructional day, as well as through Saturday sessions. The academic progress of each student will be monitored and evaluated on a regular basis. Where necessary, parents/legal guardians will be expected to support their students and students will be expected to actively participate in specified academic interventions.

All students will receive interventions from their classroom, teacher based on their current academic level. Parents/legal guardians and/or legal guardians will be notified throughout the year via various communication methods, i.e. phone calls, notes, progress reports, report cards, parent-teacher conferences, Administrative meetings, progress reports, passports, RIMP's, Coordinating Early Intervening services etc., of their students' progress. In cases where the student has been identified as having a substantial academic deficiency and/or does not progress from their established intervention plan; the student will be referred to the Intervention Assistance Team (IAT) to determine the appropriate interventions and/or course of action. Students not making adequate progress may be referred by the IAT for special education services.

12. PROMOTION/RETENTION

Students making satisfactory progress will be promoted to the next grade level. Parents/legal guardians of students determined to be academically unprepared due to Third Grade Reading Guarantee guidelines or poor academic progression, due to attendance will be contacted by Administration regarding grade placement for the next school year. WINGS tries to avoid retaining students more than once, however students who transfer into the school and are determined to be insufficiently prepared to enter the grade level he/she would normally be assigned to or students with poor attendance for consecutive years may be retained more than once. Student(s) retained under the provisions of the Third Grade Reading Guarantee, are considered 3rd graders, and may be eligible for mid-year promotion, if the student demonstrates that he/she is reading on or above grade level. Additionally, students will receive instruction in all other subjects i.e. math, social studies and science, consistent with their academic level. All students eligible for mid-year promotion, will be reviewed in consultation with the parent/guardian, Intervention Assistance Team (IAT) and with the concurrence of the building Administrator. Additionally, each class is grouped according to academic grade level. Students not performing at grade level may be placed according to their current academic/instructional grade level. In cases of retention no student will be retained beyond 1 academic year per the Governing Authority Resolution passed July 2009.

13. CHILD FIND, HOMELESS and FOSTER STUDENTS

WINGS Academy and school districts across the state of Ohio are participating in an effort to identify, locate, and evaluate all children from birth through 21 years of age, who may have disabilities. If you have or know of a child who may have a disability, contact the main office. Disability, in this instance, means such conditions as hearing impairments, visual impairments, speech or language impairments, specific learning disabilities, emotionally disturbed, multiple disabilities, mental retardation, other health impairments, physical impairments, autism, and traumatic brain injury. Our school along with other public schools have responded vigorously to federal and state mandates requiring the provision of a free appropriate public education regardless of a child's disability.

If you suspect a child with a disability, please contact the main office immediately. We will ask for information about the child, asking such questions as: What is the problem? What has already been done about the problem? What background information is available? Who can we contact the child's family? We will contact the child's family and/or appropriate agencies to collect additional information, i.e. through interviews, observation, screening, and/or testing. We will review all the information collected, to determine whether the child may have a disability and needs special services. All information collected will be held in strict confidence and released only to parents/legal guardians with permission or as allowed by law.

Additionally, all parents/legal guardians, legal guardians and students have rights in this process. Parents/legal guardians and legal guardians have the right to:

- Review child's records;
- Refuse permission to release information (except as required by, or permitted by law to be released); and
- Request that information they believe to be inaccurate, misleading, or in violation of their child's privacy or other rights be changed.

HOMELESS STUDENTS

The purpose of the McKinney-Vento Homeless Children and Youth Program is to ensure that all children and youth, including preschoolers, have equal access to the same free and appropriate public education, as non-homeless children and youth.

A homeless student is defined as an individual who lacks fixed, regular and adequate nighttime residence including:

1. A "doubling up" or sharing the housing with another family due to loss of housing, economic hardship or a similar reason;
2. Living in a motel, hotel, trailer park or campground due to the lack of alternative adequate accommodations;
3. Living in emergency or transitional shelters;
4. Abandonment in hospitals;
5. Awaiting foster care placement;
6. A primary nighttime residence that is a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings;
7. Living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings and
8. Migratory students

Please contact the main office to correspond with the homeless student liaison, as applicable.

FOSTER STUDENTS

The Every Student Succeeds Act (ESSA) emphasizes the educational stability of vulnerable students, including those in foster care. ESSA requires new guidelines and resources to ensure improved educational outcomes for children in foster care. These provisions take effect on Dec. 10, 2016.

OHIO'S CHILD PROTECTION SYSTEM: Ohio's county children services agencies are dedicated to ensuring the safety, permanency and well-being for abused, neglected and dependent children. Like education, child protection in Ohio is administered locally and supervised by the state. In the case of child protection,

the work is carried out by county children services boards or by county job and family services offices. Children in foster care face many educational barriers, including traumatization, high mobility, and undiagnosed behavioral and health conditions.

LOCAL POINT OF CONTACT Districts must designate and make public in an expedited manner, if contacted in writing by the local child protection agency, a local point of contact and the state point of contact for the child protection agency. The designated local point of contact should have sufficient capacity and the necessary resources to fulfill the duties to serve as the liaison. The contact should coordinate with child protection agencies, lead the development of a process for making the best determination for a student, facilitate the transfer of records, and ensure that foster students are enrolled and regularly attending school.

IDENTIFICATION Districts will need to identify which students in their districts are in foster care and coordinate with child protection agencies to establish formal mechanisms to ensure that they are promptly notified when a child enters foster care or changes foster care placement. The district and the child protection agency should share information concerning the foster child. Foster care means “24- hour substitute care for children placed away from their parents or guardians and for whom the child welfare agency has placement and care responsibility.” This can include placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions and pre-adoptive homes.

ENROLLMENT A district must ensure that the child is immediately enrolled in his or her new school to prevent any discontinuity in education, regardless of whether the student has the required documentation.

TRANSFER OF RECORDS If a foster student enrolls in a new school district, the school that the student enrolls in must contact the student’s prior school and obtain his or her relevant records, this includes facilitating the transfer of a student’s Individualized Education Program (IEP) expeditiously. Districts should review and revise policies and practices to remove any barriers to immediate records transfers for children in foster care.

TRANSPORTATION If a child remains in his or her school of origin during the time he or she is in foster care, the district has to develop and implement a plan to transport the child in foster care from the current home to the school of origin

14. CHILD ABUSE & NEGLECT

All school employees are mandated reporters. If an employee suspects abuse and/or neglect, a report may be made by telephone, in person, or in writing to the children

services agency, or to the law enforcement agency in the county in which the child lives or was abused. The employee will provide as much information as possible. In cases, where the employee does not have all the information and/or uncertainty regarding whether to report, will be resolved in favor of the child's protection accordingly to the following reporting guidelines:

1. Any school employee who has reason to believe that a child is being, or has been abused or neglected **will** immediately make an oral report of that suspicion to the (local DCFs) by calling (216-696-KIDS)
2. If possible the oral report shall include the following information:
 - The name, address, and telephone number of all of the following;
 - The reporter
 - The alleged child victim
 - The caretaker or guardian, if different from the caretaker, of the alleged child victim
 - The approximate age and what is known of the child's behavior and level of functioning
 - When and where the alleged abuse or neglect occurred, the type, extent, and duration of the alleged abuse or neglect, and the child's current condition.
 - When, where and how the child is at risk of abuse or neglect.
 - If there have been prior suspected incidents of abuse and neglect incurred by the alleged child victim.
 - The circumstances surrounding the alleged abuse and neglect or any other information, which might be helpful to establish the cause of abuse or neglect.
 - What is known about the behavior and functioning of the caretaker of the alleged child victim.
 - Whether or not anything has been done to reduce the risk to the child.
 - What actions have been taken, such as photographs, medical attention, or notification of law enforcement officials or other persons?
 - The identity and current whereabouts of the alleged perpetrator, the relationship of the alleged perpetrator to the child victim, and the access he may have to the child.
 - Any knowledge of other children living in the home, and if so, their names, approximate ages and relationship to the alleged child victim.

Lastly, the identity of the school employee reporting shall remain confidential, subject to disclosure by consent or court order. Information concerning alleged child abuse of a student is confidential information and is not to be shared with any unauthorized person. Any school employee who violates this policy may be disciplined and/or subject to civil and/or criminal penalties.

Specifically for field trips; true field trips present too many risks that could compromise the health of participants. Highly managed outings to settings that allow for safe distancing (such as nature preserves or isolated outdoor locations) might be included as part of the educational experience. Virtual field trips is Wings Academy's top option to broaden the student experience without taking undue risk.

will assist in the process to locate the item(s) and may offer a form of restitution if warranted. The main office will store items found in the school building and deemed lost by students in a designated area. Please check your students' book bag on a daily basis for personal property not required for school. i.e. toys, electronic devices, cell phones etc. In the event, a parent/guardian requires a student(s) to bring these items to school; please contact the office to request these items to be removed from the student(s) book bag to be properly stored in the main office. 37. DISCIPLINARY PROCEDURES

CLASSROOM DISCIPLINE POLICY

Each individual class represents a small 'community' within the larger WINGS Academy 'community'. As such, in addition to the overall community expectations, each classroom will have its own, unique talents, skills, characteristics and expectations. During the first month of school each class will establish its' class discipline policy - the rules and expectations – that all students will agree to respect and follow. If the policy is deemed ineffective by the Administration, it may be revised during the school year. All classrooms will be required to participate in school-wide Tier 1 interventions. i.e. voice levels, traditional Akan call and response of “Agoo” and “Amee”.

The Administration and/or Administration team members are available to respond to any discipline concerns or questions as applicable. The safety and security of our students and staff is a top priority. We strive to discipline our students in a firm, just, consistent, impartial and positive manner, not through the use of physical force, restraint, seclusion, ridicule or sarcasm. During disciplining measures, social distancing will take place. Should a situation arise involving your student(s), we will devote ample time to investigate the situation and schedule a virtual follow-up parent/guardian meeting or phone call as deemed necessary based upon the results of the investigation. This investigative time also affords student(s) the opportunity for self-reflection and self-discipline.

In the event, your student's behavior is a direct violation of the classroom disciplinary procedures and/or student code of conduct, the parent/guardian will be contacted to notify them of the violation and the consequences. Students with repeated violations and/or repeated removals from class may be recommended to participate in behavior intervention plans, counseling, WINGS community service, after-school educational sessions etc...as directed by the Administration or designee. Per due process procedures, if a parent/guardian cannot be reached by 3:00 p.m. a notice will be sent home with the student. All violation forms will

include the violation, start date and end date as applicable. Parents/legal guardians will be provided copies of all applicable forms, documents and an options for appeal.

38. ANTI-BULLYING POLICY

BULLYING AND OTHER FORMS OF AGGRESSIVE BEHAVIOR

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Harassment, intimidation, or bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes aggressive behavior, physical, verbal, and psychological abuse, and violence within a dating relationship. The Board will not tolerate any gestures, comments, threats, or actions, which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property, on a school bus, or while in route to or from school, and those occurring off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the school's control, in a school vehicle, or where an employee is engaged in school business.

This policy has been developed in consultation with parents/legal guardians, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the State Board of Education's Model Policy.

Harassment, intimidation, or bullying means:

- A. Any intentional written, verbal, electronic, or physical act that a student or group of students exhibits toward another particular student(s) more than

once and the behavior both causes mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s)

"Electronic act" means an act committed through the use of a cellular telephone, computer, pager, personal communication device, or other electronic communication device.

Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well-being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyber bullying, intimidating, menacing, coercion, name calling, taunting, making threats, and hazing.

Harassment, intimidation, or bullying also means cyber bullying through electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student(s) or a group of students exhibits toward another particular student(s) more than once and the behavior both causes mental and physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s).

Any student or student's parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the building Administration or assistant Administration, or the Administration. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator or Board official. Complaints against the Administration should be filed with the Administration. Complaints against the Administration should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The Administration or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in

the report. Where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying/cyber bullying by an electronic act or otherwise, has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include suspension or up to expulsion for students, up to discharge for employees, exclusion for parents/legal guardians, guests, volunteers, and contractors, and removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

Retaliation against any person, who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as aggressive behavior. Retaliation may result in disciplinary action as indicated above.

Deliberately making false reports about harassment, intimidation, and bullying and/or other aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Deliberately making false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

The District shall implement intervention strategies (AG 5517.01) to protect a victim or other person from new or additional harassment, intimidation, or bullying and from retaliation following such a report.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the Administration or appropriate administrator shall notify the custodial parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the Administration or appropriate administrator shall notify in writing the custodial parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Complaints

Students and/or their parents/legal guardians/guardians may file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to Administration for review, investigation, and action.

Students, parents/legal guardians/guardians, and school personnel may make informal or anonymous complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher, school administrator, or other school personnel. Such complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal or anonymous complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the school staff member and/or administrator to the Administration for review, investigation, and appropriate action.

Individuals who make informal complaints as provided above may request that the school staff member(s) and administrator(s) who receive the complaint maintain their name in confidence. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When an individual making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform to any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Reporting Requirement

At least semi-annually, the Administration shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.

Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

Immunity

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

Notification

Notice of this policy will be annually circulated and posted in the office and main bulletin board in the school building. The policy will be discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks.

The policy and an explanation of the seriousness of bullying by electronic means shall be made available to students enrolled at the school and to their custodial parents/legal guardians or guardians.

Education and Training

Annually, the school shall provide all students enrolled in the age-appropriate instruction regarding the Board's policy, including a written or verbal discussion of the consequences for violations of the policy.

The District shall provide professional development on this policy for school employees and volunteers who have direct contact with students.
