

2023-2024

OHIO REQUIRED TESTING POLICY

In keeping with the current legislation, Third Grade Reading Guarantee (House Bill 555), students in Kindergarten – Third grade will be given an ODE approved reading diagnostic by September 30, 2023. All students in Kindergarten will be required to take a new Kindergarten Readiness Assessment (KRA) by November 1, 2023. Wings will continue to assess students in grades Kindergarten – Eighth on a weekly and monthly basis and tri-benchmark assessments.

Furthermore, classroom teachers will inform parents and/or legal guardians of all results as needed. In cases, where the student has been identified as having a substantial reading deficiency, we will describe the current services provided to the student, describe the proposed supports to be provided, and explain that the student may be retained or be required to participate in a remediation intervention.

Students' academic skills are tested at every grade level. Students in Grades 3 through 8 must take mandated performance-based assessments. Students with significant cognitive disabilities will take an alternative assessment. These assessments cover the knowledge and skills the Ohio Department of Education expects each student to have acquired in reading, mathematics, science, and social studies as specified by the Ohio Common Core Academic Content Standards. Currently, writing is not being assessed this school year. The assessment includes multiple choice, short answer and extended response. A national firm chosen by the Ohio Department of Education scores the assessment. The scores are reported as a scaled score in relation to an established standard level of proficiency and used in determining a school's state rating.
